GENERAL SHOP FABRICATION NOTES:	
*1.	All shop joints to be glued with type II water resistant wood glue. Titebond II Premium Wood Glue.
*2.	All shop laminated panels and veneers to be glued with Wurth Premium Contact adhesive(#WWWPREMIUM).
*3.	All custom millwork to to be build with methods described in A2Z shop drawings.

GENERAL INSTALLATION NOTES:	
*1.	All field joints in standing and running trim to be glued with type II water resistant wood glue. Titebond II Premium Wood Glue
*2.	All outside corners in standing and running trim to be mitered and nailed with min. 1 $\frac{1}{4}$ " 18 gauge brad nails. (all nail holes filled by others)
*3.	All inside corners in standing and running trim to be coped if profiled and butted if square stock.
*4.	If walls are framed with metal studs. All Baseboard, Chair Rail, Lean Rail, and Windows sills will be glued to wall with Liquid Nails LN-92 Latex. If the walls are wood framed only the window sills will be glued
*5.	All standing and running trim will be nailed to walls at min. of 2 nails every 16" with 1 $\frac{3}{4}$ " 16 gauge finish nails (all nail holes filled by others)
*6.	All Upper Cabinets to be screw to wall with a min of 4 screws into blocking All Base Cabinets to be screw to wall with a min of 2 screws into blocking Typical cabinet screws to be Fastcap 2 $\frac{1}{2}$ " #10 with $\frac{9}{16}$ head(all blocking by others)
*7.	All custom millwork to be installed with methods specified in shop drawings
